

DYLAN JOHN'S FAVORITE CUSTOM KEYBOARD SHORTCUTS

KEYBOARD COMMAND EDITOR

-Use this to change the default keyboard shortcuts. If you've never created a custom keyboard, click the button on the top left, hit duplicate, rename, and save. Follow the instructions in the YouTube video (link at bottom of page and use this page as reference for the keyboard shortcut changes you made).

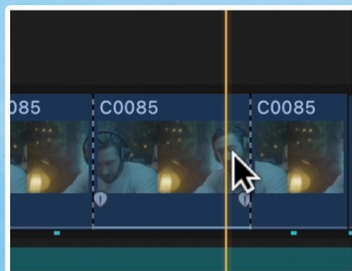

PLAY AROUND

-Plays a few seconds before and a few seconds after the position of your playhead.

Bonus Tip: Hit 'Command L' to loop playback so that range repeats.

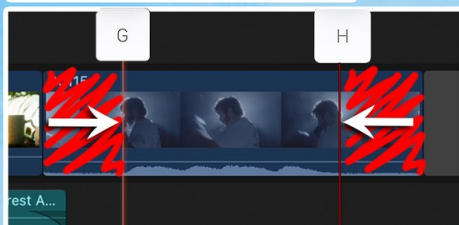

BLADE

BLADE TOOL

-Immediate cut -Brings up the blade tool

TRIM START / TRIM END

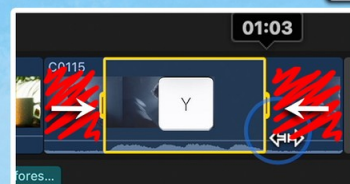

-Trim to left of playhead

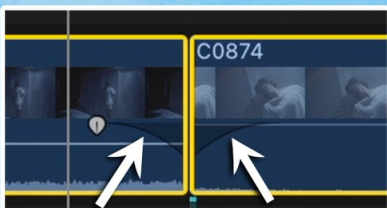

-Trim to right of playhead

TRIM TO SELECTION

-Trim clip start and end points to the range selection.
(Press **R** to bring up Range Tool.)

CREATE AUDIO FADES

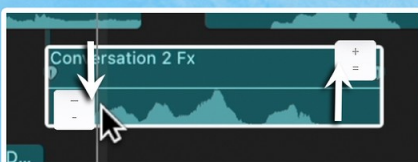

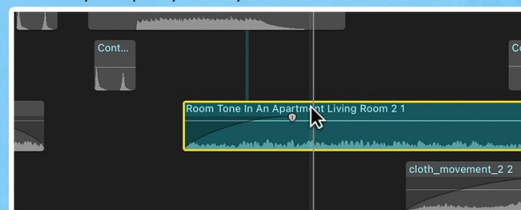

-Adds immediate fades to selected clips.

SOLO SELECT

-Only hear that selected clip/audio when you play out your timeline.

LOWER / RAISE VOLUME 1 DECIBEL

-Press to raise volume of a sound effect, music or clip by 1 decibel.

Bonus Tip: Use 'C' key and the period and comma key function to perfectly place a sound effect.

THANKS A TON FOR THE CONTINUED SUPPORT ON MY CHANNEL! Please consider subscribing if you're not subscribed already 😊
